Coteba & Sogreah, same team, enhanced expertise

www.arteliagroup.com

Artelia designs complex **industrial buildings**, logistics hubs and specialised terminals, defines layouts, integrates **production processes in controlled environments**, and guarantees **operational safety**, checks **statutory compliance**, ensures the **efficiency and reliability** of utilities, proposes solutions to **minimise environmental impacts**, performs audits for site sales and acquisitions, performs emission assessments and proposes **carbon strategies**.

Artelia assists its industrial clients on all continents via its **international network**.

INDUSTRIAL FACILITIES

- Production units in all sectors of activity
- Assembly buildings, maintenance workshops
- Logistics centres, courier services, multimodal hubs
- Offices

INDUSTRIAL PROCESSES

- Capacity analyses
- Ultra-clean rooms, ultra-sensitive environments
- Pharmaceuticals and cosmetics
- Food processing
- Aviation equipments
- Fluid networks, pressurised circuits
- Cooling systems, water intakes, pumping stations

NUCLEAR INDUSTRY

- Dismantling
- Complex structures, handling
- Installations, logistics
- Laboratories
- Cooling, ventilation
- Solid waste, confinement

LABORATORIES

- Medical and hospital laboratories
- Research laboratories
- Ultra-clean laboratories
- Sensitive laboratories

INDUSTRIAL INFRASTRUCTURE

- Specialised terminals
- Ports, railways, roads
- Energy production
- Handling and lifting

INDUSTRIAL UTILITIES

- Water supply
- Energy, electricity (power and lighting)
- Solid waste and effluents
- Air quality, noise, odours
- Industrial cooling

INDUSTRIAL ENVIRONMENT

- Statutory compliance
- Environmental impact assessments
- Environmental monitoring plans
- Remediation, asbestos removal
- Audits, due diligence

OPERATIONAL RISKS AND SAFETY

- Analysis of system/project risks
- Analysis of natural and technological risks
- Analysis of fire risks
- Maintenance in good working order
- HQSE studies
- Emergency and contingency plans

CLIENTS

- . Aviation
- . Food processing
- . Automotive
- . Biotechnology
- . Chemicals
- . Cosmetics and perfumes
- . Defence
- . Energy
- . Logistics
- . Microelectronics
- . Mines and metallurgy
- . Nuclear
- . Oil & Gas
- . Healthcare
- . Transportation
